PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (I) equipment storage maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

An explosives storage area is located at Novodmitriyevskaya, approximately 4.2 kilometers (km) south-southwest of the Afipskiy Railroad Bridge over the Afips River (Figure 1). The nearest military installations are located in Krasnodar, approximately 23 km northeast.

The explosives storage installation covers approximately 65 acres and contains 6 revetted

explosives storage buildings and a probable guardhouse (Figures 2 and 3).

The storage area is covered in KEYHOLE photography from [REDACTED] missions between [REDACTED]

Comparative analysis reveals no change in the buildings; however, revetments were constructed around the buildings, and service roads were improved during this period.

25X1D

DESCRIPTION OF INSTALLATION

Road Service

A single access road serves the installation from the main Afipskiy-Smolenskaya highway.

Ammunition Storage Area

The storage area is double fenced and contains 2 large explosives storage buildings, each 140 by 60 feet, and 4 small T-shaped

explosives storage buildings, each 35 by 25 feet. All 6 explosives storage buildings are revetted.

Other Buildings

A probable guardhouse is situated on the access road, between the storage installation and the Afipskiy-Smolenskaya highway.
